

# *Update from Marek Kmiec!*

*Mission to Poland*

September 1, 2014

Dark and rainy day today. My parents' garden is pretty much harvested already. I think the carrots and green peppers are still left. The potatoes did fine this year, but the cucumbers and tomatoes did not do very well at all. First day of school today—very busy (and nervous) time for families with kids in our church, trying to figure out various schedules, etc. Please pray for 18 year old David who is sick with leukemia—he is on oxygen and receiving morphine now. It is a very difficult time for our churches. Later on this month I will be going to Szczecin for a series of lectures. I sure appreciate your prayers. Recently, it has been quite manifest to me that we are involved in a spiritual battle. And the battle is quite fierce. Thank you for your support of the work in Poland. May our God strengthen you through His Spirit and because of Christ so that you can be victorious.

Love,

Marek
